SoftGuard™

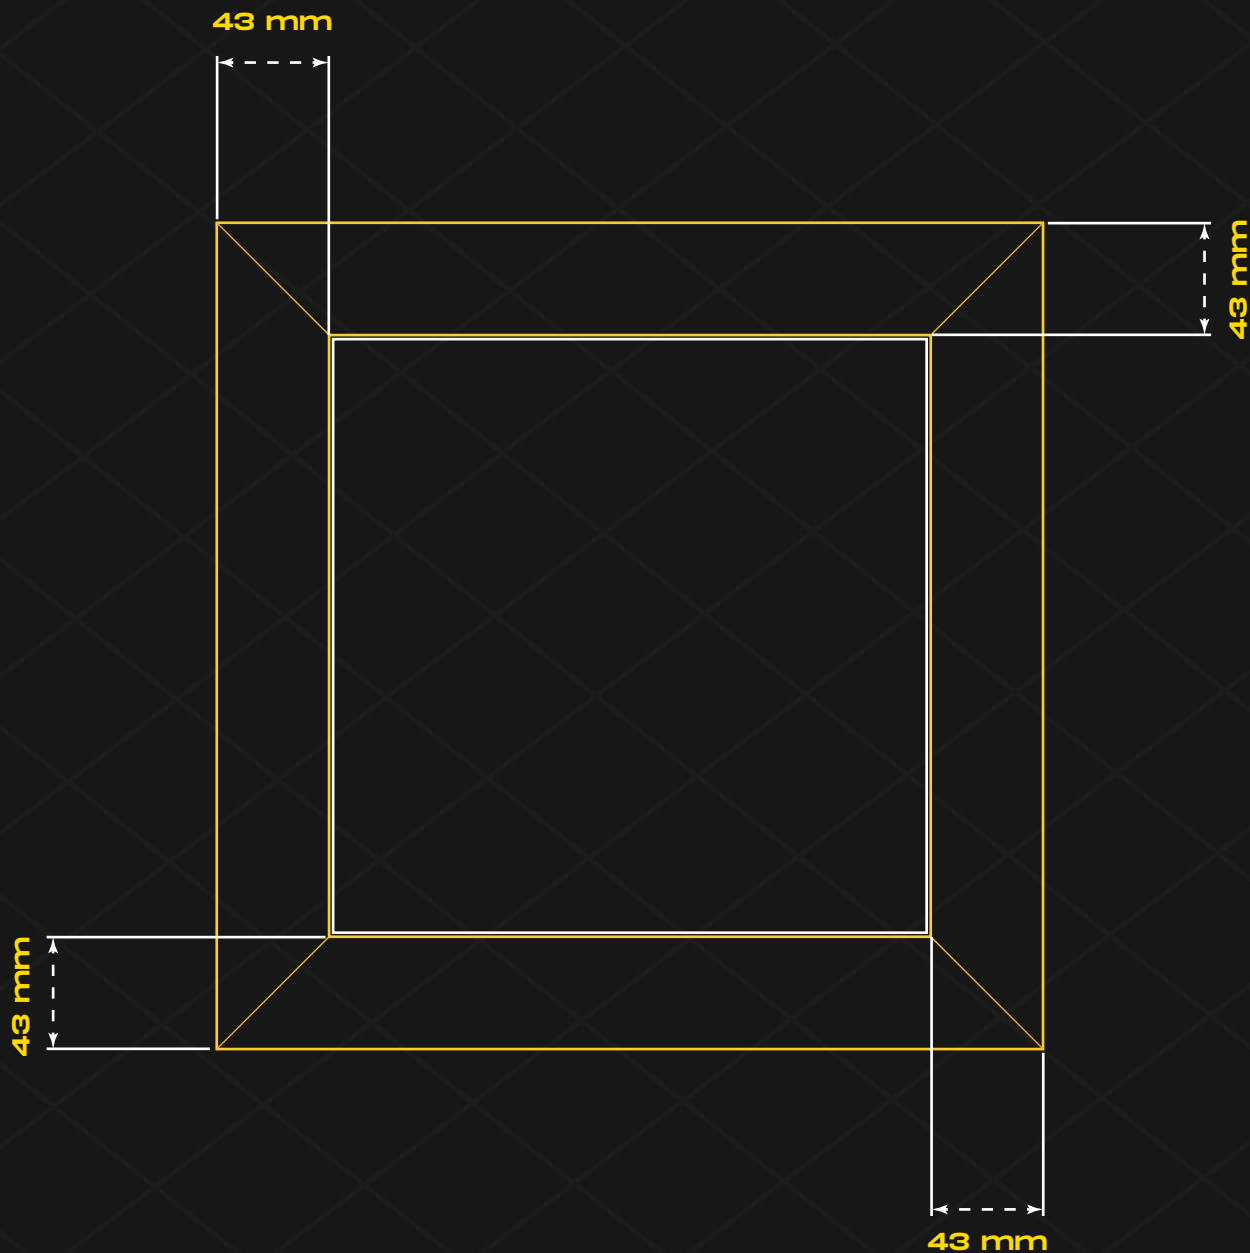

IN A HIGH-PACED INDUSTRIAL ENVIRONMENT, RIGID STEEL COLUMNS AND SHARP-EDGED PILLARS ARE MORE THAN JUST STRUCTURAL ELEMENTS, THEY ARE CONSTANT SAFETY RISKS. RAYSAN SHOCK-ABSORBING COLUMN PROTECTORS ARE ENGINEERED TO BRIDGE THE GAP BETWEEN STRUCTURAL INTEGRITY AND HUMAN SAFETY, TRANSFORMING HAZARDOUS OBSTACLES INTO CUSHIONED, HIGH-VISIBILITY SAFETY ZONES.

SUPERIOR IMPACT ABSORPTION & ALL-AROUND DURABILITY

Engineered for industrial environments, our protective foam padding combines a soft, **impact-absorbing** core with a **rugged exterior** to ensure long-lasting performance. The **360-degree wrap-around design** provides seamless coverage for steel columns and vertical posts, effectively **shielding** employees from injury during **accidental collisions** while protecting your facility's infrastructure from daily wear and tear.

DIMENSIONS

ENHANCED WORKPLACE SAFETY & PEDESTRIAN PROTECTION

Minimize workplace hazards and reduce injury-related costs with a high-visibility protection system designed for busy pedestrian zones. By isolating hard steel surfaces with our ergonomic bumpers, you create a safer navigational path for your team, ensuring maximum site security and operational peace of mind without compromising on space or efficiency.

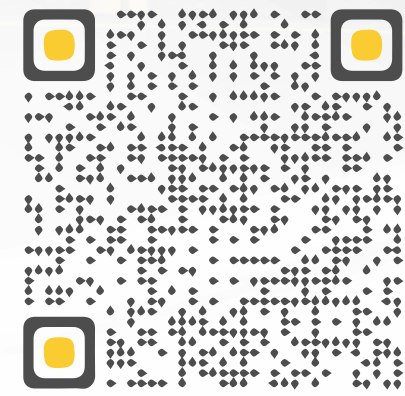

*Diameters are in mm

Environment	Ideal for both indoor and outdoor use or environments with frequent exposure to water and humidity.	Custom color options are available for high-volume project orders upon request.
